Proposer : to propose, to ask.  
Chambre (fém.) : bedroom.

Here we have our first **future forms**. We are talking about upcoming events.

The French future tense is quite easy to conjugate.  
Look at these verbs with attention.

You can notice by now that with pronoun *nous*, the future tense ends with *-ons*.

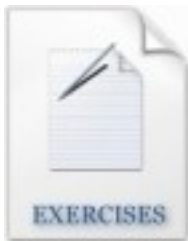

*Nous achèterons, nous cuisinerons*

And with *ils*, it ends with *-ont* :

Les enfants dormiront, ils ouvriront

And the good news is that these grammar endings are the same for every verb of every group.

That's it for today !
